School Psychologist
The school sometimes requires support in providing the best possible learning program for individual children. School Psychologists are qualified to carry out tests to assess children’s ability or to diagnose learning difficulties. Parents are always consulted before the psychologist is involved and all results are shared with parents.

Social Worker
A social worker is available to assist students who may be experiencing personal or behavioural problems.

School Dental Service
The School Dental Service is available to all school children undergoing full time primary and secondary education, as well as children under the age of eighteen. Children are generally treated at the Smithton Dental Clinic which is located at the Smithton Hospital once a year by a qualified dental therapist. Appointments can be made all year round. If your child/children require a checkup or you have concerns regarding their teeth contact the Smithton Dental Clinic on 6452 4687.
